

## Synpro® ALUMINUM STEARATE 598

### Product Description

Synpro® ALUMINUM STEARATE 598 is a mid-level ash, free-flowing, powder product primarily for cup and pressure grease applications.

Due to its unique distearate formulation, it enables a high grade of chassis lubricant to be obtained that is stable under all weather conditions. Additionally it provides a high degree of clarity for other applications (i.e. fuel oils, petroleum distillates, waterproofing, wire drawing).

Synpro® ALUMINUM STEARATE 598 is suitable for use in food packaging applications in accordance with many FDA Code of Regulations; an updated complete list is available upon request.

### Safety and Handling

Complete toxicity and handling information can be found on the Material Safety Data Sheet (MSDS), which is available upon request.

### Typical Properties

Appearance	White free-flowing powder
Ash ( $Al_2O_3$ )	9.7%
Water Soluble Salts	Nil
Free Fatty Acids	3.6%
Moisture	0.6%
Melting Point	165°C
Apparent Density	0.3 g/cc
Fineness (Sieve)	≥ 99% through 200 Mesh
