

Synpro® ZINC STEARATE DLG-20A

Product Description

Synpro® ZINC STEARATE DLG-20A is a high ash, non-caking, very fine powder product which is designed for use in coatings (Lacquer and Sanding Sealer) in highly acidic applications. Through controlled engineering and chemical processes it provides superior sanding lubrication, clarity, and bloom resistance in coating applications.

Synpro® ZINC STEARATE DLG-20A is suitable for use in food packaging applications in accordance with many FDA Code of Regulations; an updated complete list is available upon request.

Safety and Handling

Complete toxicity and handling information can be found on the Material Safety Data Sheet (MSDS), which is available upon request.

Typical Properties

Appearance	White free-flowing very fine powder
Ash (ZnO)	17.7%
Water Soluble Salts	Nil
Free Fatty Acid	0.3%
Moisture	0.2%
Melting Point	112°C
Apparent Density	0.2 g/cc
Fineness (Sieve)	≥ 99.9% through 325 Mesh
