

WINGSTAY® L

Butylated reaction product of p-cresol and dicyclopentadiene

CAS Reg.N° 68610-51-5

KEY ADVANTAGES

- Highly effective polyphenolic antioxidant
- Low volatility, non-discoloring, non-pinking

APPLICATIONS

- Protection of natural and synthetic polymers based on isoprene and butadiene chemistry
- Protection of light colored, non-staining goods derived from natural rubber and latex, SBR, carboxylated SBR latex, ABS, NBR, BR, SBS and SIS in applications where retention of appearance and elastic properties are important requirements during use and storage
- In-process stabilization of polymers used in manufactured goods such as elastic thread, carpet backing, foam rubber mattresses, household and surgical gloves, bath mats, rubber flooring, automotive components, household and electronic appliances
- Protection of adhesives and lubricants

TYPICAL PROPERTIES

Physical form	Off white powder or flakes
Specific gravity	1.1
Average molecular weight	650
Bulk density (kg/m ³), powder	320
Average particle size (µm)	10
Melting point (°C)	115
Ash content (%)	0.10
Solubility	Soluble in aromatics, ketones, and alcohols; insoluble in water and aliphatics
Food Contact	Compliance information available upon request

PACKAGING AND STORAGE

- Packaging: 20 paper bags of 25 kg (55 lbs) each, net weight 454 kg (1,000 lbs) or 908 kg (2,000 lbs) Super Bags.
- Storage: Store in dry, well ventilated area away from direct sources of heat or sun.
- Please read the material safety data sheet (MSDS) prior to use. Copy can be obtained on www.quickfds.com.

NOTE: Although the data supplied above is believed to be accurate, each user is advised to make an independent determination as to whether the described product(s) is/are appropriate for a particular use or application, whether such use will comply with all applicable laws or regulations, or whether such use will infringe the intellectual property rights of third parties.
